Helpful hints for using Acrobat Fill-In forms:

- Position the hand pointer inside a form field and click. The hand pointer will change to an I-beam pointer when an editable field exists. Use the I-beam pointer to enter text, or use the arrow pointer to select a check box. If the cursor does not change from a hand pointer, no editable field exists.
- Press **TAB** to accept text entered and to go to the next field, or press **SHIFT+TAB** to accept text entered and return to previous field.
